# POD POOL

## POD POOL

**POD POOL** is an innovative, prefabricated swimming pool crafted from a repurposed shipping container. The interior is expertly sealed with high-quality fibre-glass — available in any colour of your choice — while the exterior can be clad in any material you prefer, from timber, stone, or composite panels to suit your unique setting.

# POD POOL

## A Smarter, Faster Way to Own a Swimming Pool

**Delivered as a complete, plug-and-play pool system, each POD POOL includes:**

- High-performance pool pump and filtration system
- All required plumbing and electrical components pre-installed
- Full set of cleaning tools and accessories
- Your choice of interior fibreglass colour
- Custom exterior cladding options to match your space
- Compatible with saltwater or chlorine pool systems

**Optional Upgrades Available:**

- Swimming pool heater for all-season use
- Extended decking, customised in any shape or size
- Underwater lighting and decorative water features
- Automatic chlorinator for easier pool maintenance

**Fast & Hassle-Free Installation:**

Once delivered to your site anywhere in Kenya, your POD POOL can be fully operational in as little as 2 to 3 weeks. It offers a stylish, cost-effective alternative to traditional concrete pools.

Whether for **private homes, boutique hotels, eco-lodges, or Airbnb** properties, **POD POOL** delivers a modern, low-maintenance swimming experience — ready when you are.
