POD POOL

A Refined Pool Experience, Crafted from a Shipping Container

POD POOL

A Refined Pool Experience, Crafted from a Shipping Container

A fast, modern, low-maintenance swimming pool solution for homes, lodges, hotels, Airbnbs, schools, estates and lifestyle developments.

A Smarter Way to Build a Swimming Pool

Traditional swimming pools can take months of excavation, concrete work, waterproofing, tiling, plumbing, curing, finishing and site supervision. **POD POOL** changes that process completely.

Each **POD POOL** is manufactured from a strong shipping-container structure and finished internally with a smooth fibreglass pool lining in the client's chosen colour. The pump, filtration, plumbing and key pool systems are built into the unit before delivery, creating a complete pool solution that arrives on site ready for final installation and commissioning.

This gives clients a faster, cleaner and more controlled way to add a swimming pool to their property — without turning the entire site into a long construction project.

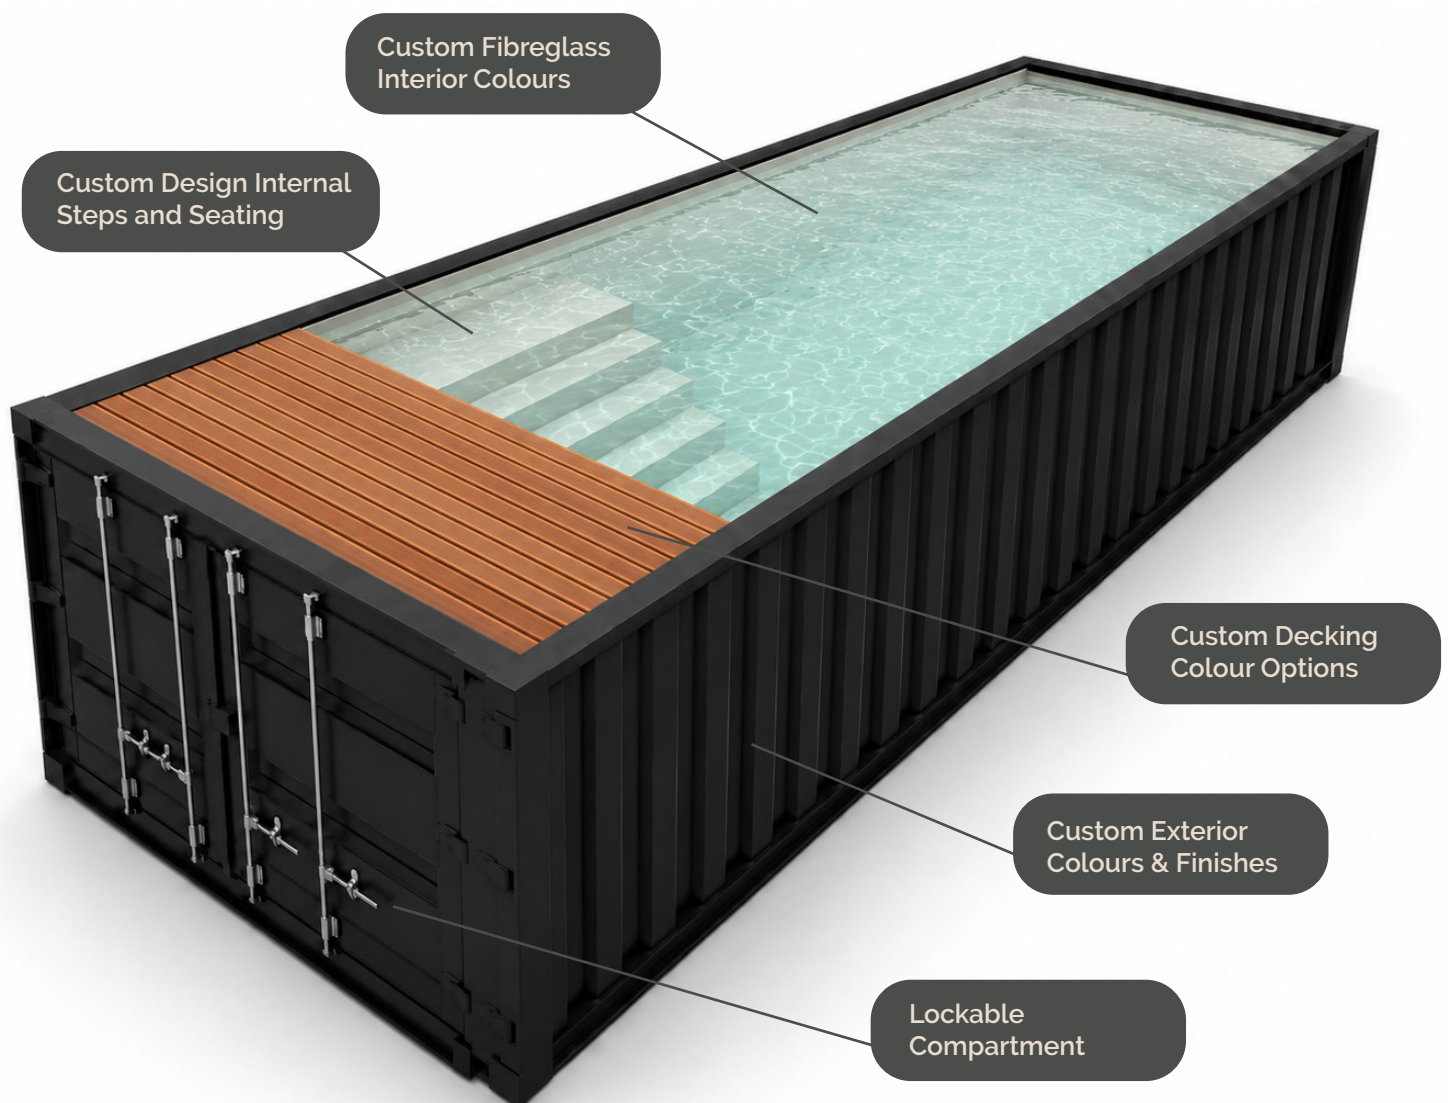

Built in the factory | Delivered to site | Installed with minimal disruption

The POD POOL System

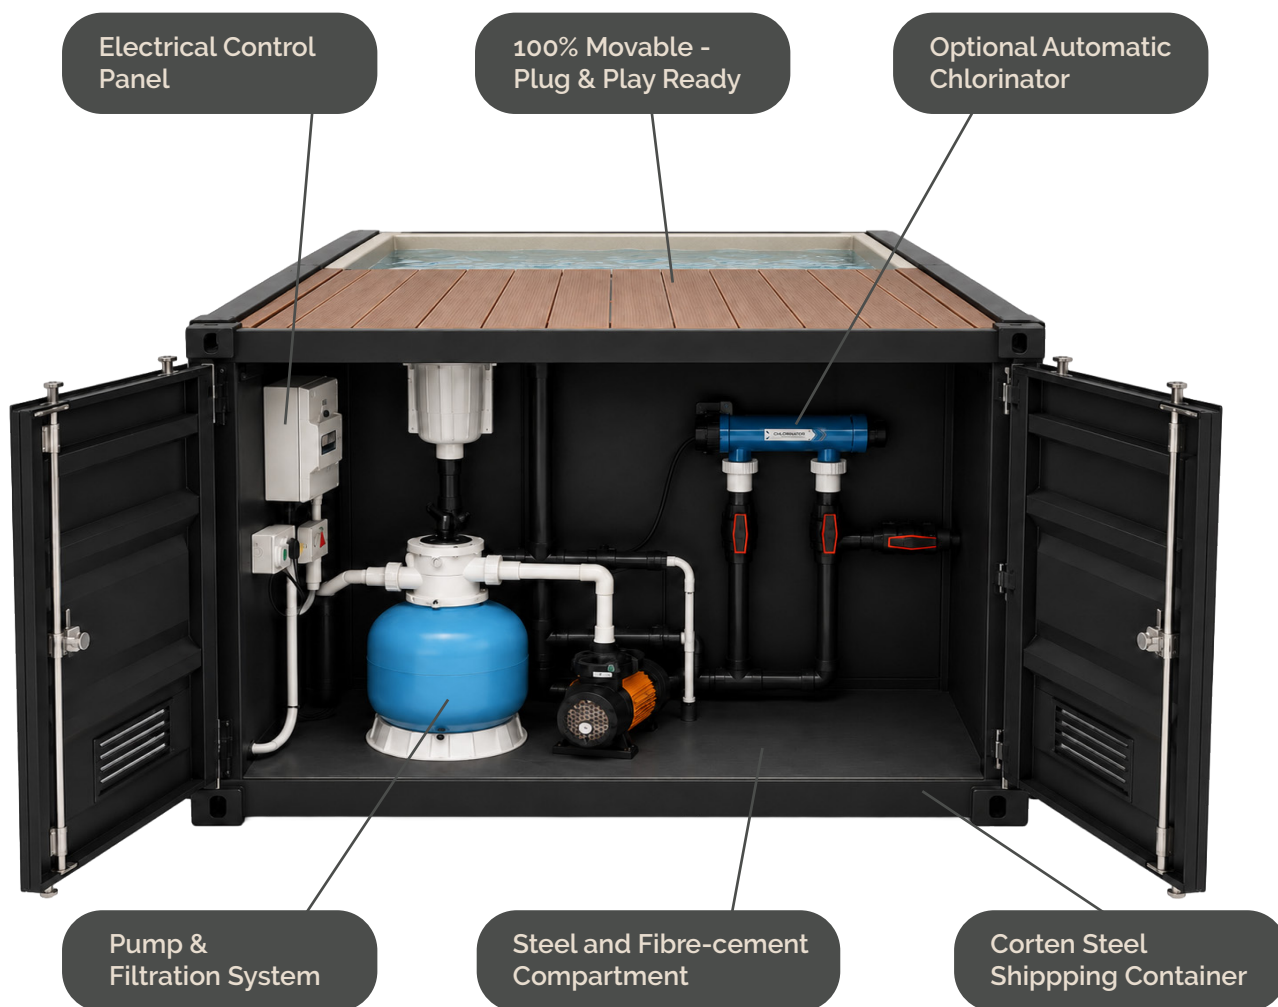

Every POD POOL is supplied as a complete swimming pool package.

The POD POOL is designed as a self-contained pool system. The water circulates through the built-in pump and filter system, keeping the pool clean, moving and easy to maintain.

All optional extras can be quoted separately.
Let us help you create the perfect POD for your needs.

A Complete Pool System — Not Just a Container

BUILT TO LAST

Built from high-grade Corten steel with a marine-grade protective coating, designed for strength, stability and long-term durability.

SMART PUMP COMPARTMENT

Everything is neatly housed in the built-in end compartment with easy-access double doors.

PLUG & PLAY READY

Pre-plumbed and pre-wired system for faster installation and effortless operation.

WHAT'S INCLUDED

- ✓ Container pool structure

POD POOL 20

Compact. Stylish. Easy to place.

Starting Price

KSHS **1.29m**

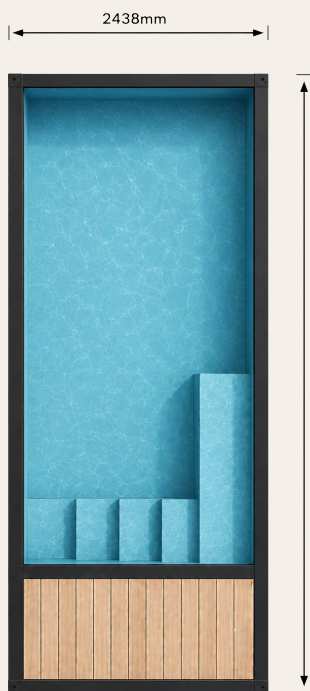

Best For:

Homes, gardens,
Airbnb units, villas,
compact lodge spaces

POD POOL 20

Built from a 20ft shipping container, it gives you a modern, self-contained pool system with a fibreglass-lined interior, built-in pump compartment, internal steps and seating, pool lighting, cleaning accessories and automatic chlorinator.

It is compact enough to fit into tighter spaces, but still large enough to completely transform an outdoor area into a private poolside retreat.

EXTERNAL CONTAINER SIZE:

6058mm (L) x 2438mm (W) x 1220mm (H)

INTERNAL POOL SIZE:

5840mm (L) x 2220mm (W) x 1200mm (H)

WATER DEPTH:

1200mm (flat bottom)

CAPACITY:

~10.5m³

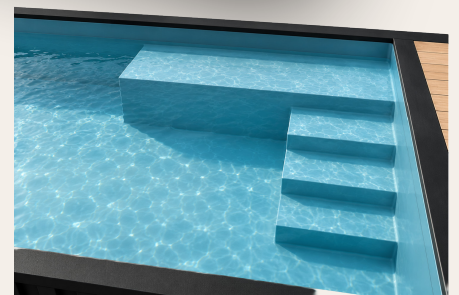

DECKING AREA:

2180mm (L) x 2438mm (W)

FEATURES:

Full depth with submerged top step
Wide entry steps
Shallow seating ledge
Filtration system compartment
Marine grade finish

Transportation

Depending on Location

Kshs 50,000 - 180,000/=

On-site Logistics

Depending on Location

Kshs 80,000 - 280,000/=

Expected delivery

2 - 4 Weeks

Figures are inclusive of applicable Government Taxes. All Figures in Kenyan Shillings

POD POOL 40

Longer. More dramatic. Built for impact.

Starting Price

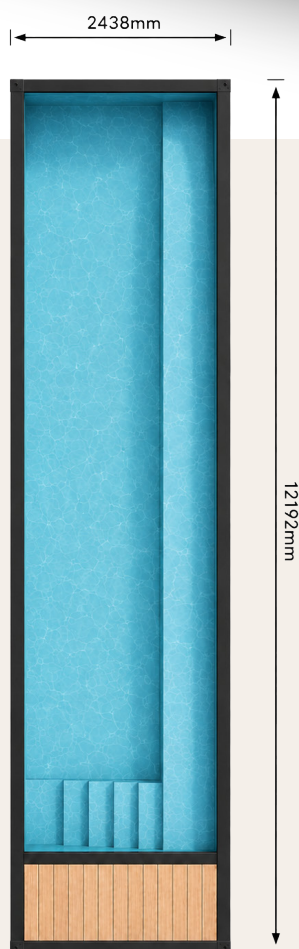

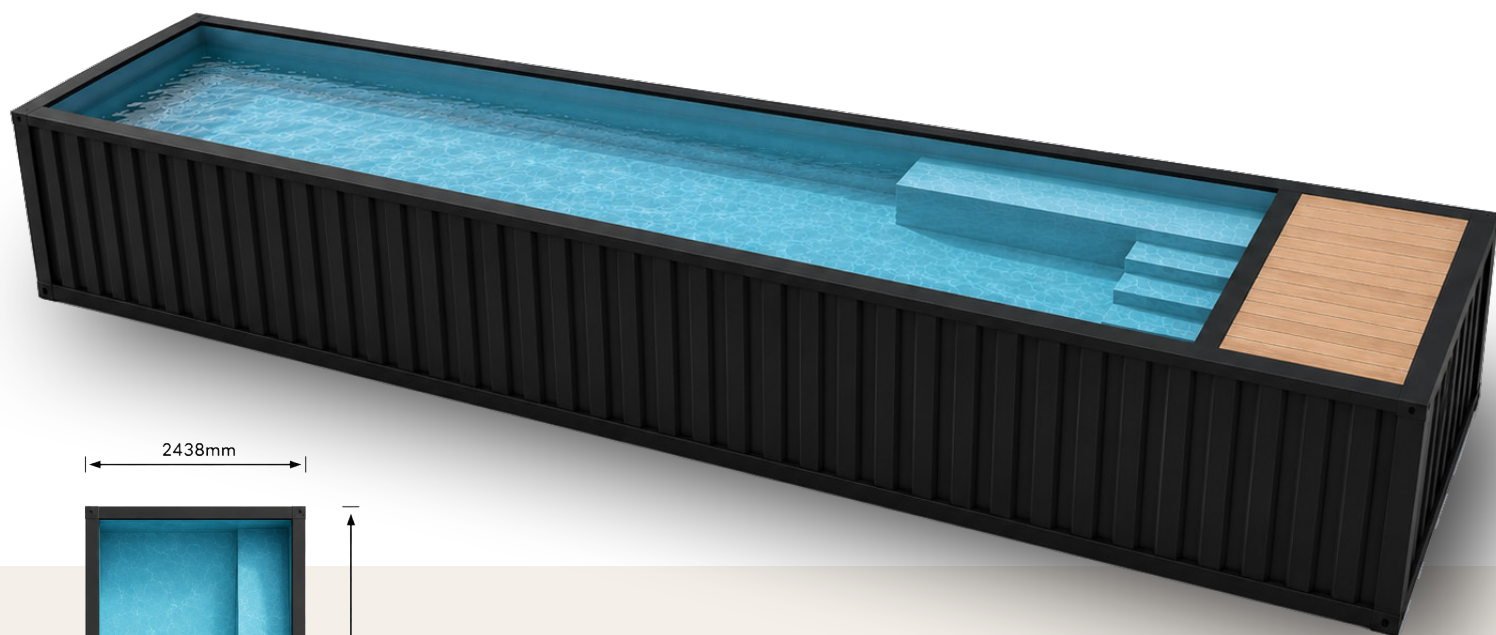

KSHS **1.79m**

Best For:

Hotels, lodges, larger homes,
family properties, clubs,
schools and premium outdoor spaces

POD POOL 40

The POD POOL 40 is designed for clients who want a more dramatic pool experience. At 12 metres long, it gives you a longer swimming area, stronger visual presence and a more premium feel for larger homes, hotels, lodges, schools, clubs and lifestyle developments.

EXTERNAL CONTAINER SIZE:

12192mm (L) x 2438mm (W) x 1220mm (H)

INTERNAL POOL SIZE:

11980mm (L) x 2200mm (W) x 1200mm (H)

WATER DEPTH:

1200mm (flat bottom)

CAPACITY:

~21.5m³

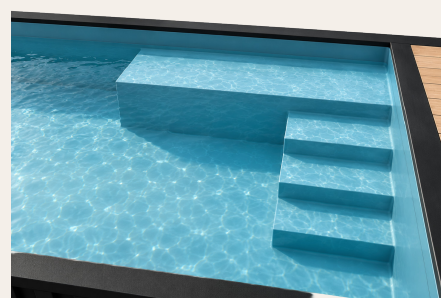

DECKING AREA:

All upgrades are designed for smooth, efficient installation.

ADD VALUE

Enhance comfort, functionality, and long-term value.

**Your POD POOL.
Your way.**

Flexible options.
Complete freedom.
Endless possibilities.

From Order to Swimming

1

Site Visit & Assessment

We assess access, levels, crane or truck movement, services, location, and overall installation requirements so we can understand exactly what is needed for your site. Site visits are charged from **Kshs 20,000**.

Quotation, Pool Selection & Deposit

We provide your quotation and help you select the right **POD POOL** model — **POD POOL 20** or **POD POOL 40** — along with your preferred internal fibreglass colour, exterior cladding, decking, and optional upgrades. Once approved, the deposit is paid to confirm the order and secure production.

2

3

Factory Build

Your **POD POOL** is then manufactured in our factory. The container is modified, prepared, fibreglass-lined, fitted with the pump and equipment, and finished according to your selected specifications.

Site Preparation

While your pool is being built, the site is prepared for installation. This includes foundation or supports, drainage, site access, and all required service provisions.

4

5

Balance Payment, Delivery & Placement

Once the pool is complete, the balance payment is made before delivery to site. The **POD POOL** is then transported and positioned using the agreed delivery and placement method.

Connection, Commissioning & Handover

The pool is connected, filled, tested, and commissioned so it is ready for use. Your one-year warranty commences from the point of commissioning.

6

Important Note:

The client is responsible for ensuring that the site is legally available for development and that any required county approvals, permissions, utility connections, groundworks, or access improvements are in place before installation, unless otherwise agreed in writing.
